Ceramics

Ceramics classes are held workshop style, so if you have any ideas you have been thinking over, now would be the time to express them in clay. We will utilize our facility to the max, from the pottery wheel to hand-building to extruding, and even slab rolling to create reliefs. Fees cover the cost of your first bag of clay. It is important to attend the first class, where safety procedures and a material list will be discussed.

Metal Jewelry Design

This class emphasizes building basic/intermediate knowledge of jewelry design and construction. Beginning students will design their own jewelry and construct their design pieces using the fundamental techniques of soldering, sawing, filing, finishing, and basic bezel setting. Lectures, demonstrations, and handouts will provide the basis of any technique needed. Intermediate students will progress through more advanced techniques (forging, cold connections, etching, etc). Jewelry will be made from metal sheet and wire. Brass, copper, and tools are provided. New students need to attend the first class for a safety discussion and a materials list.

Cartoneria

The ability to create sculptures from paper is known as “cartoneria” (cardboard sculpture). Cartoneria is a popular art form from Mexico that combines a mixture of indigenous knowledge with Spaniard art techniques and is deeply rooted in ancient Mexico’s legends. In this course, we will create fantastic mythological creatures from paper. We will incorporate diverse elements from creatures such as demons, angels and/or dragons to create new and unique forms.

Oaxacan Woodcarving

This class is inspired by the centuries old tradition of Oaxaca animal carvings. You will learn how to use hand woodcarving tools such as chisels and knives to create fantastic animals, to wonderful, intricate and expressive by nature. This class is for the enthusiastic beginner or the seasoned experienced woodcarver. We will cover the history and cultural background of Oaxaca wood carvings, “alebrijes” and other Mexican traditional arts. We will cover safety rules in the wood shop, how to read the wood, basic shapes in sculpture, sealing of the art piece, decorating and finishing, from the mere conception of the idea to the exhibition of the artwork.

Metal Jewelry Lab

Volunteers monitor the lab. In order to participate in the labs students must know safety procedures. Students must have taken 3 or more quarters of metal classes at Studio One or have equivalent proficiency. No storage space is available. Studio One facilities can not be used for production work.
Reduce stress by exploring the world of lampworking (bead making) using a Hot Head torch, stained glass, and glass fusing. Arts and crafts are a great form of therapeutic healing for all ages. If you’re looking for a natural way to de-stress and have fun, take this class and expand your world of creativity. Each type of glass media will be taught for three weeks each. Learn how to make glass beads, stained glass sun catchers, and fused items such as plates, coasters, or jewelry. The instructor will demonstrate techniques and provide hands-on support for students during their practice. Class will cover all materials, glass, supplies, and equipment. Additional instruction will be provided for those interested in completing necklaces, earrings, or bracelets using wire and other jewelry supplies.

Warm Glass/Fused Glass

Come to this hands on creative glass workshop and find your personal expression while playing with glass, powders, stringers, and confetti. You will learn how to cut and design glass to be fused (melted together in a kiln) and then slumped (sagged into a mold). Create several functional and non-functional works. Learn how to play with this magical material. Beginning and Intermediate students welcome! Most tools are available in the Glass Studio.
Come learn flamework glass bead making with us! Studio One has the oldest continuously running public flamework program in California. Each student is assigned their own oxy-propane torch, and will make many beads! Suitable for all skill levels, including brand new beginners, as well as teens with parental waiver. All materials & equipment use included in fee. Wear non-flammable clothing (cotton, wool, ok). *The Thursday Open Studio section of this course if Free and held as an open Artists Studio. Harlen will be demoing and lecturing during these times. Come in, get inspired, and learn from a Master.

### Stained Glass Lab

Participants who don’t need instructions are welcome to work on their individual projects. A lab monitor is present for set-up/break-down and to ensure lab safety. You must have taken Stained Glass class for 3 sessions at studio one. New participants who have extensive knowledge of the safety and prep procedure can meet with the glass coordinator to waive the requirements. Once in the lab, it is important to follow any directions stated, posted, and respect other students artwork. There is no storage space. You must provide your own glass. There are Studio One stock tools.

Volunteers assist as monitors to set-up the chemistry, observe and break down the Darkroom. Our facilities are available to the community for black and white film developing and printing no larger than 11” x 14”. Prior to registration, and lab use, new participants must have a brief over the phone or e-mail interview with the photo coordinator. At the time of your initial arrival, the monitor will give you an orientation that will include Studio One’s safety procedures and participant protocol. Bring your own photo paper and film. No production or commercial work is allowed. Lab time is purchased in 20-hour blocks of time. Patrons use time within 6 months. $90 for 20 hours for Oakland residents.

### Darkroom Printing Techniques

When your traditional black & white photographs don’t give you the impact you would like, consider taking a darkroom printing intensive. This is a “one to one” darkroom printing intensive with an instructor who has many years of darkroom printing experience. Learn various techniques in the photo printing process: dodging and burning; masking, darkroom chemistry, toning, using correct printing filters, lens & filter choices and selecting the correct photo paper for your print. This is a 3 hour intensive. Select a time and day that will work for you and the instructor to meet. Student provides their own photo paper. Prior darkroom printing experience required.

### Refresher Course

This class will provide the student the opportunity to “refresh” their skills in the darkroom. This will be a “one to one” instruction in the various printing techniques necessary to produce a high quality black and white photographic print. Whether you’ve been out of the darkroom for 20 years or less, you’ll still know some of the basics. Learn about the various darkroom chemicals that are used; the various papers and films that are available and how to control the enlarger during the developing/ printing process. This class will refresh your memory and get you to a proficient level of printing where you can rent darkroom space at Studio One and print on your own. Individual instruction should be scheduled in advanced.

Painting Lab
Monitors set up, observe and break down the classroom. There are no instructions. You provide your own non-noxious materials. Oil painters must use non-toxic materials to respect the model and other participants.

Laboratory: Landscape and Still Life
Achieving effective color and light doesn’t have to be difficult. Oil/acrylic/watercolor painters, all levels welcome. We will begin with the basics and discuss materials and equipment that make painting easier and fun. Each class will feature still life setup to work from. Techniques covered will be using light and shade to create convincing volume, how transparency creates depth, and using grays to make visual space in the still life. Should that color be warm or cold? Thick or thin? Mixed with white or pure? Come prepared to paint on the first class. Critique last class. Odorless thinner only please. See www.tarzier.com for examples of instructor work.

Painting Your Personal Mythology

In this class you will explore what shamanic cultures call a life dream or life story through painting, journaling, guided visualization, meditation and movement will assist the student in accessing the depths of their unconscious material where their life story or myth is unfolding. Through this method students will enhance their creativity and painting skills, and begin to discover and understand their personal myth. We use tempera paints, 22”X 28” high grade paper and medium size brushes to begin recording spontaneous images, dreams, and memories without judgement, hesitation or doubt. Learn when a painting is finished, how to trust your relationship with the artist within and discern the artists voice from the inner critical voice.

CIT Program  Spring Training
Our counselor training course for teens teaches invaluable leadership, organizational, interpersonal, and customer service skills. CIT is a four week course held in the spring, followed by weekly on-site internships that guides students to be important assets to employers and the community this summer. During the internship, students will get to assist teachers in a classroom setting. This program is geared toward 12 to 16 year old, and upon graduation each student receives an official certificate of completion.
